

ORDER OF THE STATE OF WISCONSIN  
NATURAL RESOURCES BOARD  
AMENDING RULES

The Wisconsin Natural Resources Board proposes an order to **amend** NR 410.05(3)(c) of the Wisconsin Administrative Code relating to asbestos inspection fees.

AM-20-01

Analysis Prepared by the Department of Natural Resources

Authorizing statutes: ss. 227.11(2)(a), 285.11(1) and 285.69(3), Stats.

Interpreting statutes: ss. 285.11(6), Stats. The State Implementation Plan developed under that provision is revised.

The Department has received statutory authority and budget approval to increase asbestos inspection fees by \$10 per large project. A large project is one where the amount of asbestos containing materials (ACM) to be abated is equal to or greater than 1000 in combined linear footage and square footage of ACM. The combination of square and linear footage is determined by adding the square footage of ACM on all areas other than pipes to the linear footage of ACM on pipes.

The increased revenues will be used to help fund the asbestos program. It is expected that \$4,000 will be generated annually.

---

SECTION 1. NR 410.05(3)(c) is amended to read:

NR 410.05(3)(c) ~~\$200~~ \$210 if the asbestos renovation or demolition operation involves friable asbestos material with a combined square and linear footage of equal to or greater than 1000. The combination of square and linear footage shall be determined by the method given in sub.(2)(a).

The foregoing rule was approved and adopted by the State of Wisconsin Natural Resources Board on September 26, 2001.

The rule shall take effect the first day of the month following publication in the Wisconsin administrative register as provided in s. 227.22(2)(intro.), Stats.

Dated at Madison, Wisconsin \_\_\_\_\_.
